The Latest College News

From the AHS Guidance Department

Welcome to the Latest College News! This brief newsletter is brought to you by the Guidance Department and is meant to provide you with up-to-the-minute developments about majors, concentrations, campus projects and other College and University updates.

CONTENTS

SETON HALL INTRODUCES SCHOOL OF DIPLOMACY

Seton Hall introduces the School of Diplomacy and International Relations providing innovative programs in undergraduate education. The school benefits from a unique alliance with the United Nations topics through lectures, events and our UN study seminar. Students can also enhance their study with the B.S./M.A. accelerated five-year program or the recently launched 3+3 B.S./J.D. program with Seton Hall Law School. To learn more visit, http://diplomacy.shu.edu.

PRINCETON UNIVERSITY UPDATES

Princeton University announces exciting new developments including the opening of the Andlinger Center for Energy and the Environment. The new center is a shared facility within the School of Engineering and Applied Science. It provides state of the art labs to develop methods and materials to preserve the planet and sustain our energy and environmental future. **New SAT policy:** Princeton requires students to sit for the optional Essay. They will accept the old SAT, the New SAT with Writing or the ACT with Writing. Princeton has also **added new minors** to their academic offerings including: archaeology, entrepreneurship and music theater. For more information, visit www.admission.princeton.edu.

MANHATTAN COLLEGE OFFERS ALLIED HEALTH MAJOR

Manhattan College offers a Bachelor of Science degree in Allied Health with a Major Concentration (approximately 33 credits of course work) in **Health Care Administration** or **General Studies.** This degree offers a broad understanding of health and illness from biological, psychological and sociological perspectives, a solid liberal arts education, which provides students with courses useful for an entry-level position in the Allied health field or for furthering his/her education beyond the bachelor's degree. If you are interested in learning

more about this course of study, please visit the Radiological and Health Professions webpage by clicking on the School of Education and Health at www.manhattan.edu.

SUNY OSWEGO GROWS ITS ENGINEERING MAJOR

SUNY Oswego continues to grow its new Electrical and Computer Engineering major (B.S.), to go along with their program in Software Engineering. In addition, Oswego is one of the first SUNY Colleges to offer undergraduate co-op opportunities. Add to that, Oswego offers one of the largest study aboard programs in the SUNY system. For more, please visit www.oswego.edu/admissions.

FINANCIAL AID AND TAP

The New York State Tuition Assistance Program (TAP) helps eligible New York State residents attending in-state post-secondary institutions pay for tuition. Because TAP is a grant, it does NOT have to be paid back. **How do I apply?** Complete the **Free** Application for Federal Student Aid – the FAFSA – at www.fafsa.ed.gov. You and your guardian need a Federal Student Aid Identification number (FSA ID) to complete and electronically sign the FAFSA. You may apply for the FSA ID in advance at fsaid.ed.gov. If you are a NYS resident applying to a college in NYS, follow the direct link from the FAFSA to the TAP application. If you missed the TAP link from the FAFSA, you will receive information from HESC to apply online. **Visit www.hesc.ny.gov/tap to learn more about the TAP and www.hesc.ny.gov to learn more about financial aid.**
